

SCREENBUILDER PRO : CUSTOM SCREEN GRAPHICS

PRAN's drag-and-drop application allows one to easily create custom screen graphics in no time and without any programming knowledge. Choose elements from the **ScreenBuilder Pro** library, modify predefined elements (size, text, etc.) and/or import your own images.

Create XML files visually

- Preview resulting screen(s)
- Prevent common errors
- Save time and money
- Drag-and-drop platform
- Edit and re-export in no time

Edit display application

- Create and edit network variables
- Create and edit CAN messages
- Edit outputs of a selected display

Customize to clients' needs

- Different screen ratios
- Language translation option
- Import custom images such as company logos
